6.0	5	Walking range < 100 meters without assistance
	6	Unilateral assistance, ≥ 50 meters
	7	Bilateral assistance, ≥ 120 meters

 = combination of FS (solid green) and Ambulation (solid grey) values define the EDSS step in the respective line. Lower values in the hatched boxes have no impact on the EDSS step corresponding to this line.

 = FS scores in the hatched boxes have no impact on respective EDSS step.
